BASEBALL RESCHEDULING POLICY

William and Mary will follow the CAA Inclement Weather Policy for all home weekend series, both conference and non-conference. Also, per the conference policy, games may not be rescheduled in advance of prospective weather problems.

A. In the event of inclement weather, the Assistant Athletic Director-Facilities (AADF), in conjunction with the Head Baseball Coach, will determine if the field is playable until the game commences. Once the game has started, the umpire-in-chief assumes full responsibility for continuation of play.

B. The decision on whether the game can be played must be made within one hour of the scheduled game time. Following the decision, the field must be ready for play within one hour. For example, a decision must be made by 2:00 PM for a game scheduled for 1:00 PM, and the field must be ready to play no later than 3:00 PM.

C. Rained out games in weekend series will not be made up except as in the inclement weather policies note below. A normal series is three (3) single 9-inning games scheduled on Friday, Saturday, and Sunday.

1. Unable to begin first game of the series (Friday). A doubleheader will be played on Saturday, with a 9-inning first game and 7-inning second game. If the Saturday game was originally scheduled for 1:00 PM, the doubleheader will start at 1:00 PM; otherwise, the Saturday doubleheader will start at 2:00 PM.

2. Unable to complete (9-innings) first game of series (Friday). The game will be restarted on Saturday at the point it was halted with the intention to complete a full 9-inning game. A conclusion of the first game must be made before the second game can begin on Saturday. If the Saturday game was originally scheduled for 1:00 PM, the doubleheader will start at 1:00 PM; otherwise, if five or more innings were completed on Friday, the Saturday doubleheader will start at 3:00 PM; if less than five innings were played, the Saturday doubleheader will start at 2:00 PM.

3. If the first game of the series cannot be completed on Saturday (because weather prohibits all play), the "complete game" rule will govern the outcome of the contest.

4. Sunday doubleheader. If it is necessary to play two games on Sunday, the first game will be 7-innings and the second game 9-innings. This permits a possible 7-inning first game and 5-inning second game to assist in travel time. The Sunday doubleheader will start at the time the Sunday game was originally scheduled (1:00 PM).

For single mid-week non-conference games rained out, they will not be rescheduled if the visiting team has left their respective campus. The same decision-making principles apply to these games (i.e. a decision must be made within one hour of the scheduled game time).

The AADF is responsible for communicating the status of game times. In the event of a delay or postponement, calls will be made to the following individuals:

- Spencer Milne, Marketing, Promotions & Ticket Ops 1-3356
- Travis Lawson, Sports Information 1-3344
- Renee Cork, Sports Medicine 1-3407 or 757-784-8180
- Campus Police 1-4596
